Summary

Looking for opportunity in the IT field, where I can use my creative and problem-solving skills. In my professional career, I would like to work on projects that require high-end technology to solve complex problems as well as working on challenging tasks to keep myself motivated in this competitive world of technology. I am a self driven person, always ready to learn new things. Also love traveling to new places and exploring new places. My objective is To gain more knowledge and exposure, while helping me grow in the corporate world

Experience

Professor

APTECH Computer Education

Mar 2022 - Present (1 year 5 months)

As a Faculty of Web Development and Programming at Aptech Computer Education, I play a pivotal role in shaping the future of aspiring developers and programmers. With my expertise and passion for the subject, I guide students through the exciting world of web development and programming, equipping them with the necessary skills to excel in the field.

I am responsible for designing and delivering an engaging curriculum, ensuring that it aligns with the latest industry trends and technologies. I create a supportive and interactive learning environment, fostering a collaborative spirit among students. Through hands-on projects, assignments, and practical exercises, I encourage students to apply their knowledge and enhance their problem-solving abilities.

One of my key responsibilities is to provide personalized attention and mentorship to each student, understanding their unique learning needs and helping them overcome challenges. I continuously assess their progress and provide constructive feedback to foster their growth and development. Additionally, I stay updated with emerging tools and techniques, enabling me to share valuable insights and industry best practices with my students.

Overall, my role as a Faculty of Web Development and Programming at Aptech Computer Education is driven by a commitment to nurturing the next generation of talented developers and programmers, empowering them to succeed in this dynamic and ever-evolving field.
